Ghost Forest Pik-Shuen Fung 2021-07-13 This “powerful” (BuzzFeed) award-winning debut about love, grief, and family welcomes you into its pages and invites you to linger, staying with you long after you’ve closed its covers. “Quietly moving . . . connected by a kind of dream logic . . . deeply felt . . . There is joy and tenderness in . . . Fung’s elegant storytelling.”—The New York Times Book Review How do you grieve, if your family doesn’t talk about feelings? This is the question the unnamed protagonist of GhostForest considers after her father dies. One of the many Hong Kong “astronaut” fathers, he stays there to work, while the rest of the family immigrated to Canada before the 1997 Handover, when the British returned sovereignty over Hong Kong to China. As she revisits memories of her father through the years, she struggles with unresolved questions and misunderstandings. Turning to her mother and grandmother for answers, she discovers her own life refracted brightly in theirs. Buoyant and heartbreaking, Ghost Forest is a slim novel that envelops the reader in joy and sorrow. Fung writes with a poetic and haunting voice, layering detail and abstraction, weaving memory and oral history to paint a moving portrait of a Chinese-Canadian astronaut family. “Ghost Forest is the tender/funny book we can all appreciate after a hellish year.”—Literary Hub

The Invention of the Kaleidoscope Paisley Rekdal 2007-02-25 The Invention of the Kaleidoscope is a book of poetic elegies that discuss failures: failures of love, both sexual and spiritual; failures of the body; failures of science, art and technology; failures of nature, imagination, memory and, most importantly, the failures inherent to elegiac narratives and our formal attempt to memorialize the lost. But the book also explores the necessity of such narratives, as well as the creative possibilities implicit within the "failed elegy," all while examining the various ways that self-destruction can turn into self-preservation.

Mots de L'histoire Jacques Rancière 1994 History in our day is still a story, and yet one from which we expect to tell the truth - not just the facts, the names and events of the past, but the invisible order and forces behind them. How can the language of history balance these seemingly contrary tasks - the narrative, the scientific, and the political? This is the question Jacques Ranciere explores in "The names of history", a meditation on the poetics of historical knowledge. In the works of writers from Jules Michelet to Fernand Braudel, Ranciere traces an ongoing revolution in historical study, a movement that challenged, in the practice of language, the opposition of science and literature. By way of a commentary on Erich Auerbach, he shows how fictional narrative intertwines with historical narrative to produce a "truth" that retains mythical elements. The poetics of knowledge Ranciere develops here is an attempt to identify the literary procedures by which historical discourse escapes literature and gives itself the status of a science. His book is also an appreciation of Braudel, whose work in the Annales school greatly advanced this project. Ranciere follows and extends Braudel's discursive production of new agencies of history, which accounts for both the material conditions in which history takes place and the language in which it is written.

Kaleidoscope City Piers Moore Ede 2015-04-21 Situated on the left bank of the Ganges, in the state of Uttar Pradesh, Varanasi is one of the oldest continually inhabited cities in the world. For Hindus there is nowhere more sacred; for Buddhists, it is revered as a place where the Buddha preached his first sermon; for Jains it is the birthplace of their two patriarchs. Over the last four thousand years, perhaps no city in the world has stood witness to such a flux of history, from the development of Aryan culture along the Ganges, to invasions that would leave the city in Muslim hands for three centuries, to an independent Brahmin kingdom, British colonial rule, and

ultimately independence. But what is the city like today? Home to 2.5 million people, it is visited by twice that number every year. Polluted, overpopulated, religiously divided, but utterly sublime, Varanasi is a living expression of Indian life like no other. Each day 60,000 people bathe in the Ganges. Elderly people come to die here. Widows pushed out by their families arrive to find livelihood. In the city center, the silk trade remains the most important industry, along with textiles and the processing of betel leaf. Behind this facade lurk more sinister industries. Varanasi is a major player in the international drug scene. There's a thriving flesh trade, and a corrupt police force that turns a blind eye. As with Suketu Mehta's Maximimum City Piers Moore Ede tells the city's story by allowing inhabitants to relate their own tales. Whether portraying a Dom Raja whose role it is to cremate bodies by the Ganges or a khoa maker, who carefully converts cow's milk into the ricotta like substance that forms the base of most sweets, Ede explores the city's most important themes through its people, creating a vibrant portrait of modern, multicultural India.

A Room Called Earth Madeleine Ryan 2020-08-18 One of Bustle's Best Books of 2020! An unforgettable story of a fiercely original young woman, whose radical perspective illuminates a new way of being in the world As a full moon rises over Melbourne, Australia, a young woman gets ready for a party. And what appears to be an ordinary night out is--through the prism of her singular perspective--extraordinary. As the evening unfolds, each encounter she has reveals the vast discrepancies between what she is thinking and feeling, and what she is able to say. And there's so much she'd like to say. So when she meets a man and a genuine connection occurs, it's nothing short of a miracle. However, it isn't until she invites him home that we come to appreciate the humanity beneath the labels we cling to, and we can grasp the pleasure of what it means to be alive. The debut novel from the inimitable Madeleine Ryan, A Room Called Earth is a humorous and heartwarming adventure inside the mind of a bright and dynamic woman. This hyper-saturated celebration of love and acceptance, from a neurodiverse writer, is a testament to moving through life without fear, and to opening ourselves up to a new way of relating to one another.

The Antarctica of Love Sara Stridsberg 2022-01-18 The international star Sara Stridsberg returns with The Antarctica of Love, an unnamed woman's tale of her murder, her brief life, and the world that moves on after she left it They say you die three times. The first time for me was when my heart stopped beating beneath his hands by the lake, and the second was when what was left of me was lowered into the ground in front of Ivan and Raksha at Bromma Church. The third time will be the last time my name is spoken on earth. She was a neglected child, an unreliable mother, a sex worker, a drug user—and then, like so many, a nameless victim of a violent crime. But first she was a human being, a full, complicated person, and she insists that we know her fully as she tells her story from beyond the grave. We witness her short life, the harrowing murder that ended it, and her grief over the loved ones she has left behind. We see her parents struggle with guilt and loss. We watch her children grow up in adopted families and patch

together imperfect lives. We feel her dreams, fears, and passions. And still we will never know her name. A heartrending novel of life after death, Sara Stridsberg's *The Antarctica of Love* is an unflinching testament of a woman on the margins, a tale of family lost and found, a report of a murder in the voice of the victim, and a story that brims with unexpected tenderness and hope.

Turkish Kaleidoscope Jenny White 2021-05-04 A powerful graphic novel that traces Turkey's descent into political violence in the 1970s through the experiences of four students on opposing sides of the conflict *Turkish Kaleidoscope* tells the stories of four unforgettable protagonists as they navigate a society torn apart by violent political factions. It is 1975 and Turkey is on the verge of civil war. Faruk and Orhan are from conservative shopkeeping families in eastern Anatolia that share a sense of new possibilities. Nuray is the daughter of villagers who have migrated to the provincial city where Yunus, the son of an imprisoned teacher, was raised in genteel poverty. While attending medical school in Ankara, Faruk draws a reluctant Orhan into a right-wing nationalist group while Nuray and Yunus join the left. Against a backdrop of escalating violence, the four students fall in love, have their hearts broken, get married, raise families, and struggle to get on with their lives. But the consequences of their decisions will follow them through their lives as their children begin the story anew, skewed through the kaleidoscope of historical events. Inspired by Jenny White's own experiences as a student in Turkey during this tumultuous period as well as original oral histories of Turks who lived through it, *Turkish Kaleidoscope* reveals how violent factionalism has its own emotional and cultural logic that defies ideological explanations.

This Jade World Ira Sukrungruang 2021-10 This *Jade World* centers on a Thai American who has gone through a series of life changes. Ira Sukrungruang married young to an older poet. On their twelfth anniversary, he received a letter asking for a divorce, sending him into a despairing spiral. How would he define himself when he was suddenly without the person who shaped and helped mold him into the person he is? After all these years, he asked himself what he wanted and found no answer. He did not even know what wanting meant. And so, in the year between his annual visits to Thailand to see his family, he gave in to urges, both physical and emotional; found comfort in the body, many bodies; fought off the impulse to disappear, to vanish; until he arrived at some modicum of understanding. During this time, he sought to obliterate the stereotype of the sexless Asian man and began to imagine a new life with new possibilities. Through ancient temples and the lush greenery of Thailand, to the confines of a stranger's bed and a devouring couch, *This Jade World* chronicles a year of mishap, exploration and experimentation, self-

discovery, and eventually, healing. It questions the very nature of love and heartbreak, uncovering the vulnerability of being human.

Enough About Love Hervé Le Tellier 2011-02-01 GONCOURT PRIZE-WINNING AUTHOR Any man—or woman—who wants to hear nothing—or no more—about love should put this book down. Anna and Louise could be sisters, but they don't know each other. They are both married with children, and for the most part, they are happy. On almost the same day, Anna, a psychiatrist, crosses paths with Yves, a writer, while Louise, a lawyer, meets Anna's analyst, Thomas. Love at first sight is still possible for those into their forties and long-married. But when you have already mapped out a life path, a passionate affair can come at a high price. For our four characters, their lives are unexpectedly turned upside down by the deliciously inconvenient arrival of love. For Anna, meeting Yves has brought a flurry of excitement to her life and made her question her values, her reliable husband, and her responsibilities to her children. For Louise, a successful career woman in a stable and comfortable marriage, her routine is uprooted by the youthful passion she feels for Thomas. Thought-provoking, sophisticated, and, above all, amusing, *Enough About Love* captures the euphoria of desire through tender and unflinching portraits of husbands, wives, and lovers.

Cairn James Thomas Fletcher 2017-02-06 From the author of *Poems from Terra*, landmarks, monuments, and tombstones along the road of life. Meditations on nature, love, longing, war, and being. PRAISE FOR JAMES THOMAS FLETCHER: A penetrating and provocative smorgasbord. His poems sing and inform in thoughtful, non-conforming, wonderful ways. Life's harmonies coupled with a realistic sprinkling of irony and brilliant dissonance. An existential celebration of life. From intimacies of love to an explanation of the universe, by way of a walk on the noir side ... Fletcher spotlights the quirks of human longing and the enigmas of memory. I have always favored the slow sipping of a refreshing libation mixed with a perfect blend of romance and magic ... adorned with the lemon-lime twist of macabre fantasy. The breadth of topics is impressive. [Fletcher's] depth of thought, humor, love for words, and poetic skill made the book a joy and a challenge to read. Humor, passion, reverence, irreverence; a connection to people, a reflection on life and self, an exploration of ideas. The tantalizing hints and allusions made me want to have the poet in the same room so that I could plumb for more. Highly personal, experiential.... free flowing exuberance of the visual. The intensity of feeling is superior.... Their complexity is almost painful.... I was moved, confused, astounded, curious, excited. A 'Fletcher' adds feathers to arrows to make them fly true. James Thomas Fletcher's poems ... fly straight to a reader's heart. Fun, intelligent, trenchant. Explore these shorter samples for a glimpse into Cairn. BLUE LAKE thunderstorms rage outside the window and a young heron sits in the middle of my lake like a blue asparagus on the back of a sun drenched iguana OBSIDIAN Obsidian. The word lies immovable on the page. A boulder among pebbles of words. Poets unearth it as an ancient coin found beneath the sand or sprinkle it like a rare dark jewel. Its thud-heavy weight attracts the eye like light to a black hole. TUCKPOINTING When no one's looking the ivy vine slips its feet into the

mortar between the line of scuffed bricks, tucks itself into the cracks and waits creviced for winter.

Love is basically like a kalaidoscope and it changes colour in all human relations with time.

The Uninhabitable Earth David Wallace-Wells 2020 "It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible. In California, wildfires now rage year-round, destroying thousands of homes. Across the US, "500-year" storms pummel communities month after month, and floods displace tens of millions annually. This is only a preview of the changes to come. And they are coming fast. Without a revolution in how billions of humans conduct their lives, parts of the Earth could become close to uninhabitable, and other parts horrifically inhospitable, as soon as the end of this century. In his travelogue of our near future, David Wallace-Wells brings into stark relief the climate troubles that await -- food shortages, refugee emergencies, and other crises that will reshape the globe. But the world will be remade by warming in more profound ways as well, transforming our politics, our culture, our relationship to technology, and our sense of history. It will be all-encompassing, shaping and distorting nearly every aspect of human life as it is lived today. Like An Inconvenient Truth and Silent Spring before it, The Uninhabitable Earth is both a meditation on the devastation we have brought upon ourselves and an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single

generation"--
