Jihad vs. McWorld Benjamin Barber 2010-04-21 Jihad vs. McWorld is a groundbreaking work, an elegant and illuminating analysis of the central conflict of our times: consumerist capitalism versus religious and tribal fundamentalism. These diametrically opposed but strangely intertwined forces are tearing apart--and bringing together--the world as we know it, undermining democracy and the nation-state on which it depends. On the one hand, consumer capitalism on the global level is rapidly dissolving the social and economic barriers between nations, transforming the world's diverse populations into a blandly uniform market. On the other hand, ethnic, religious, and racial hatreds are fragmenting the political landscape into smaller and smaller tribal units. Jihad vs. McWorld is the

term that distinguished writer and political scientist Benjamin R. Barber has coined to describe the powerful and paradoxical interdependence of these forces. In this important new book, he explores the alarming repercussions of this potent dialectic for democracy. A work of persuasive originality and penetrating insight, Jihad vs. McWorld holds up a sharp, clear lens to the dangerous chaos of the post-Cold War world. Critics and political leaders have already heralded Benjamin R. Barber's work for its bold vision and moral courage. Jihad vs. McWorld is an essential text for anyone who wants to understand our troubled present and the crisis threatening our future.

Stand Firm Paul Gould 2018-11 In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. *Stand Firm: Apologetics and the Brilliance of the Gospel* argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect

these considerations with the gospel so that we may stand firm in our faith.

The Neglected Majority Dale Parnell 1985 Designed for high school and community college leaders, this book examines a number of issues related to student success, learning continuity, individual differences, and the lack of community college involvement in secondary education; and offers a proposal for increasing high school/community college program cooperation and coordination. After chapter I examines some dilemmas faced by educators in defining excellence, chapter II looks at the effects of technological, educational, and socio-economic tensions on educational excellence. Chapter III highlights such barriers to excellence as unfocused learning, loss of continuity in learning, failure to accommodate individual differences, and unfounded images about learning. Chapter IV offers a model of careers education as a learner-centered bridge between subject-matter disciplines and the competencies required by modern life. In chapter V, the "Opportunity with Excellence" philosophy is proposed as the basis for the community college mission, and a policy statement for the associate degree is presented as developed by the American Association of Community and Junior Colleges. After chapter VI underscores the importance of cooperation and coordination between the high school and the community college, offering examples of successful efforts around the nation, chapter VII delineates the assumptions and characteristics of a 2 + 2 Tech-Prep/Associate Degree Program, which blends the liberal and practical arts in a coordinated program that begins during the last 2 years of high school and culminates with an associate degree. Finally, suggestions for cultivating excellence are presented. (LAL)
